-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. Election filed on 3/16/05 has been received.

Election/Restrictions

2. Applicant's election of Species A in the reply filed on 3/16/05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

3. Claims 5-34 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 3/16/05.

Applicants have stated that they believe that claims 5 and 6 read upon the elected embodiment. However, upon review of the specification, the examiner could not find any discussion of lubricating oil with regard to the elected embodiment. Oil films are discussed with regard to the second and third embodiments. Therefore, they have been withdrawn by the examiner.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3683

5. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sakai et al (U. S. Patent no. 6,197,371) in view of Stefanutti et al (U. S. Patent no. 5,083,642).

Sakai et al discloses: see figure 3 brake band 2 in which the friction material 24 on the apply side has been treated to have a higher friction coefficient than the friction coefficient on the rest of the brake band 24'.

Sakai et al does not disclose a double wrap band. Stefanutti et al teaches a double wrap brake band. It would have been obvious to one of ordinary skill in the art at the time the invention was made to use a double wrap brake band as taught by Stefanutti et al in the device of Sakai et al in order to increase performance (see Stefanutti et al column1 lines 31-32 which discuss how double wrap bands are able to withstand higher torque and loads in modern devices like transmissions).
